

PROJECT
one

**Portfolio prioritisation
in extraordinary times**

Portfolio prioritisation

COVID-19 is bringing previously unseen levels of change for everyone, at a pace and scale which dictates both a rapid adjustment and response, as well as a comprehensive re-evaluation of business priorities.

At times like these the fundamentals of portfolio management are still crucial, but need to be applied at a faster cadence and considerate of different criteria.

There are five main aspects to focus on; execute them in unison and at pace, and it will serve your organisation well:

- Review your criteria and reset your planning horizon
- Manage in days and weeks, not weeks and months
- Define clear measures, targets and reports
- Lift approval levels & empower sponsors
- Run operational and investment changes as one portfolio

Our Project One team can help:

- Experienced consultants, used to dealing with difficult, stressful situations, with lots of ambiguity
- Calm, structured thinkers, who break problems down and provide practical solutions
- Used to working remotely, orchestrating virtual teams working in different (often global) locations
- Trusted to step in at a senior level
- Easy to engage and can be mobilised quickly to support you for as long as you require

Five areas to focus on:

1

Review your criteria and reset your planning horizon

Identify new investment criteria (both emerging and enduring)

Re-evaluate and re-prioritise portfolio using new criteria

2

Manage in days or weeks, not weeks or months

Challenge conventional reporting cycles for critical projects

Manage, measure and govern in short, sharp cycles

3

Define clear measures, targets and reports

Set clear, focused financial and operational KPIs and targets

Report comprehensively yet simply to present key MI

4

Lift approval levels and empower sponsors

Critical projects need strong sponsorship to stay on track

Empower high level sponsors to take key delivery decisions

5

Run operational and change investments as one portfolio

Provide a single view of constrained costs and resources

Identify successes or slippages swiftly and adapt accordingly

Our portfolio prioritisation experience

Single change view

Global Engineering Company

- Delivering a consistent, high value service focused on optimising portfolio and programme delivery:
- Designing and building Enterprise Portfolio Office service framework and governance structure
- Implementing standard processes and tooling to embed ways of working
